Because the preliminary work has all been done and the

expense of equipping the first unit and placing the Com-

li you have the chance to go there and take a look you should start at once. It may mean a fortune.

# ORLEANS

The Orleans is the leader. They have a wonderful showing and will show you through and let you cut your own samples. They are crosscutting on the 700 and are now into the casing. Cross stringers are showing splendid pannings, indicating that the ore will prove even richer than in the levels above. A limited amount of Orleans Treasury Stock may be had now at 35 cents a share. When they cut the ore the price will be advanced to 50 cents, and by Christmas it will likely take a dollar or more to get it.

## MAY

The Hornsilver May has a group of claims splendidly located close in to the big one, and shows some of the richest free gold samples in the district. Treasury Stock may be had at 5 cents for a short time. An advance may be expected when the Orleans cuts the ore on the 700.

# GOLDSMITH

The entire interest of Mr. Julius Goldsmith in the Goldsmith Divide has been taken over by Tonopah and Goldfield parties and a new organization is being perfected. The Goldsmith has acquired a group of five claims in the Hornsilver District, and every claim has one or more showings. The new management intends to make a 50-ton high-grade shipment before Christmas. Goldsmith is listed and if you can pick up any of this issue under 10 cents you will make a big killing.

A number of big deals are pending. Representatives of capitalists in New York and Philadelphia are on their way now. We have had two expert miners in the field for two weeks.
